

One Day Together

FRIDAY

18th November 2016

Be part of it - your support matters!

You, your child and your school are part of Educate Together. Working together we have established 80 national schools and nine second-level schools across the country - schools that give children a great education and equips them with the skills and attitudes they need to fulfill their potential.

As we receive less than 20% of our funding from the state, we really need your support on One Day Together, Friday, 18 November. So please get involved and help us raise the funds we need to support our schools and keep them as great places for your child to learn and grow.

Check us out at www.educatetogether.ie/OneDayTogether to make a donation now or for other ways to get involved.
